Four distinct questions, four distinct uncertainty objects

Complete histories

Exact hypergeometric miss probability C(6−K, m) / C(6, m)

Point estimate + village bootstrap CI

Missing windows

Sharp bounds over all completions (exact prefix search)

Identification range (no assumptions)

Label error

Shared flip budget Dinkelbach + exact knapsack DP

Wider range per hypothetical budget

Calendar timing

Select window on 2020, freeze, evaluate 2021 (+ matched cohort)

Out-of-year check (not causal)
